

Tasks Completed During Reporting Period

The following activities associated with the RFI and IM work at the subject facility were conducted between April 1-30, 2022.

- Maintained operation of the ICM system and conducted performance monitoring, including effluent sampling for VOC analysis, quarterly water level measurements, and daily system flow rate measurements.
- Submitted the Q1 2022-Interim Corrective Measures Performance Monitoring Report.
- Submitted the off-site monitoring well results letters to the property owners for the February 2022 sampling event.
- Submitted the residential and off-site monitoring well notification letters to the property owners for the May 2022 sampling event.
- Finalized the off-site bedrock well placement.

Difficulties Encountered During Reporting Period

No difficulties were encountered during the reporting period.

Summary of Contacts with Local (Community or Public) or Regulatory Groups

No interactions with the public or with EPA/DHEC occurred during this reporting period.

Projected Work for Next Reporting Period

Owens Corning's plans for the next reporting period of May 1-31, 2022 include:

- Continue operation of the ICM system and conduct required quarterly performance monitoring.
- Conduct the May 2022 quarterly monitoring event.
- Install gravel access driveway for access to off-site bedrock well location and schedule well installation.
