

Tasks Completed During Reporting Period

The following activities associated with the RFI and IM work at the subject facility were conducted between August 1-31, 2021.

- Maintained operation of the ICM system and conducted performance monitoring, including effluent sampling for VOC analysis, quarterly water level measurements, and daily system flow rate measurements.
- Conducted the August quarterly groundwater monitoring event.
- Submitted the *Q2 2021 Interim Corrective Measures Performance Monitoring Report*.

Difficulties Encountered During Reporting Period

No difficulties were encountered during the reporting period.

Summary of Contacts with Local (Community or Public) or Regulatory Groups

Owens Corning and Brown and Caldwell had a conference call with EPA on August 5, 2021 to discuss the next steps with the off-site monitoring well location. Initiated correspondence with off-site property owner regarding access to install bedrock well on property. Additionally, EPA requested a Technical Memorandum (Tech Memo) be prepared to provide technical rationale for the proposed off-site bedrock well. No additional interactions with the public or with EPA/DHEC occurred during this reporting period.

Projected Work for Next Reporting Period

Owens Corning's plans for the next reporting period of September 1-30, 2021 include:

- Continue operation of the ICM system and conduct required quarterly performance monitoring.
- Submit the off-site monitoring well notification letters to the property owners for the August 2021 sampling event, pending receipt of analytical data.
- Continue correspondence with off-site property owner regarding access to install bedrock well on property.
- Preparation of Tech Memo in support of proposed off-site bedrock well location. Tech Memo will be submitted once property access has been obtained to install off-site bedrock well.
-
