

### **Tasks Completed During Reporting Period**

The following activities associated with the RFI and IM work at the subject facility were conducted between November 30 and December 31, 2016.

- Maintained operation of the ICM system and conducted performance monitoring, including effluent sampling for VOC analysis, quarterly water level measurements, and daily system flow rate measurements.
- Coordination and preliminary planning for installation of new wells.
- Submittal of the RFI Work Plan to EPA on December 12, 2016, which was approved by EPA on December 14, 2016.
- Submitted the *Q3 2016 – Interim Measures Corrective Monitoring Report* on December 1, 2016.
- Submitted the *Revised Quality Assurance Project Plan on December* on December 22, 2016.

### **Difficulties Encountered During Reporting Period**

No difficulties were encountered during this reporting period.

### **Summary of Contacts with Local (Community or Public) or Regulatory Groups**

Owens Corning has had ongoing correspondence with EPA during this reporting period related to planning for the installation of three new bedrock groundwater monitoring wells. No additional interactions with the public or with EPA/DHEC occurred during this reporting period.

### **Projected Work for Next Reporting Period**

Owens Corning's plans for the next reporting period of January 1-31, 2017 include:

- Continue operation of the ICM system and conduct required quarterly performance monitoring.
- Continue coordination and planning for the new bedrock wells.
- Preparation of the *Q4 2016 – Interim Measures Corrective Monitoring Report* to be submitted following receipt of the Q4 data.
- Continue preparation of the *2016 Annual Groundwater and Surface Water Monitoring Report* to be submitted by January 30, 2017.
- Continue preparation of the November 2016 residential well sampling and offsite monitoring well results letters to property owners to be submitted by January 30, 2017.
