

Tasks Completed During Reporting Period

The following activities associated with the RFI and IM work at the subject facility were conducted between December 1-31, 2020.

- Maintained operation of the ICM system and conducted performance monitoring, including effluent sampling for VOC analysis, quarterly water level measurements, and daily system flow rate measurements.
- Submitted a RFI Work Plan for installation of an additional bedrock well.

Difficulties Encountered During Reporting Period

No difficulties were encountered during the reporting period.

Summary of Contacts with Local (Community or Public) or Regulatory Groups

No interactions with the public or with EPA/DHEC occurred during this reporting period.

Projected Work for Next Reporting Period

Owens Corning's plans for the next reporting period of January 1-31, 2021 include:

- Continue operation of the ICM system and conduct required quarterly performance monitoring.
- Submit the off-site and residential well results letters to property owners for the November 2020 sampling event.
- Submit the *2020 Annual Groundwater and Surface Water Monitoring Report*.
- Submit the off-site monitoring well notification letters to the property owners for the February 2021 sampling event.
