

### **Tasks Completed During Reporting Period**

The following activities associated with the RFI and IM work at the subject facility were conducted between December 1-31, 2023.

- Maintained operation of the ICM system and conducted performance monitoring, including effluent sampling for VOC analysis, quarterly water level measurements, and daily system flow rate measurements.

### **Difficulties Encountered During Reporting Period**

No difficulties were encountered during the reporting period.

### **Summary of Contacts with Local (Community or Public) or Regulatory Groups**

No interactions with the public or with EPA/DHEC occurred during this reporting period.

### **Projected Work for Next Reporting Period**

Owens Corning's plans for the next reporting period of January 1-31, 2024, include:

- Continue operation of the ICM system and conduct required quarterly performance monitoring.
- Submit the offsite monitoring well and residential well results letters to the property owners for the November sampling event.
- Submit the 2023 Annual Groundwater and Surface Water Monitoring Report.
- Submit the offsite monitoring well notification letters to the property owners for the February sampling event.
