

Tasks Completed During Reporting Period

The following activities associated with the RFI and IM work at the subject facility were conducted from January 17 through February 20, 2013.

- Continue operation of the IM system and conduct performance monitoring, which included monthly effluent sampling for VOC analysis, quarterly water level measurements, and daily system flow rate measurements.
- Submittal of the 2012 Annual Groundwater and Surface Water Monitoring Report on January 30, 2013.
- Submittal of the Q4 2012 – Interim Measures Performance Monitoring Report on January 30, 2013. This report proposed going to semi-annual (May and November) hydraulic and analytical monitoring of wells within the foot print of the containment.
- Conducted the quarterly groundwater monitoring during February 11-15, 2013.
- Continue preparation of the RFI Technical Memorandum to document additional site investigation activities (i.e., installation of MW-44, surface water assessment).

Summary of Contacts with Local (Community or Public) or Regulatory Groups

No significant interactions with the public or with EPA/DHEC occurred during this reporting period.

Projected Work for Next Reporting Period

Owens Corning's plans for the next reporting period of February 21 through March 19, 2013 include:

- Continue operation of the IM system and conduct performance monitoring.
- Begin working on the 2013 Semiannual Groundwater Monitoring Report due to EPA on July 30, 2013.
