

Tasks Completed During Reporting Period

The following activities associated with the RFI and IM work at the subject facility were conducted between January 1-31, 2020.

- Maintained operation of the ICM system and conducted performance monitoring, including effluent sampling for VOC analysis, quarterly water level measurements, and daily system flow rate measurements.
- Submitted the off-site monitoring well notification letters to property owners for the February 2020 sampling event.
- Submitted the *2019 Annual Surface Water and Groundwater Monitoring Report*.
- Submitted a response to EPA's December 16 and 17, 2019 comment letters for the Q3 2019 - Interim Corrective Measures Report and 2018 Annual Groundwater and Surface Water Monitoring Report, respectively. EPA granted Owens Corning an extension on responding to the December 17, 2019 letter requesting a Work Plan until after the parties meet on March 2, 2020 to discuss the Site.

Difficulties Encountered During Reporting Period

No difficulties were encountered during the reporting period.

Summary of Contacts with Local (Community or Public) or Regulatory Groups

Owens Corning has had ongoing correspondence with EPA during this reporting period related to RFI activities. No additional interactions with the public or with EPA/DHEC occurred during this reporting period.

Projected Work for Next Reporting Period

Owens Corning's plans for the next reporting period of February 1-29, 2020 include:

- Continue operation of the ICM system and conduct required quarterly performance monitoring.
- Conduct the February quarterly groundwater monitoring during the week of February 10-14, 2020.
- Submit the off-site monitoring well and residential well results letters to property owners for the November 2019 sampling event.
- Submit the *Q4 2019 – Interim Corrective Measures Performance Monitoring Report*.
