

### **Tasks Completed During Reporting Period**

The following activities associated with the RFI and IM work at the subject facility were conducted between July 1-31, 2022.

- Maintained operation of the ICM system and conducted performance monitoring, including effluent sampling for VOC analysis, quarterly water level measurements, and daily system flow rate measurements.
- Submitted the residential and off-site monitoring well results letters to the property owners for the May 2022 sampling event.
- Submitted the off-site monitoring well notification letters to the property owners for the August 2022 sampling event.
- Began off-site bedrock well installation the week of July 25, 2022.

### **Difficulties Encountered During Reporting Period**

No difficulties were encountered during the reporting period.

### **Summary of Contacts with Local (Community or Public) or Regulatory Groups**

No interactions with the public or with EPA/DHEC occurred during this reporting period.

### **Projected Work for Next Reporting Period**

Owens Corning's plans for the next reporting period of July 1-31, 2022 include:

- Continue operation of the ICM system and conduct required quarterly performance monitoring.
- Continue off-site bedrock well installation, packer testing and geophysical logging.
- Conduct the August 2022 quarterly groundwater monitoring event.
- Submit the Q2 2022 Interim Corrective Measures Performance Monitoring Report.
