

The following activities associated with the RFI and IM work at the subject facility were conducted between June 16 and August 17, 2016.

- Maintained operation of the ICM system and conducted performance monitoring, including effluent sampling for VOC analysis, quarterly water level measurements, and daily system flow rate measurements.
- Conducted the August 2016 quarterly groundwater monitoring event during the week of August 15-19, 2016, which included analysis of groundwater samples from select Northeast perimeter wells and three surface water sample locations for 1,4-dioxane by EPA Method 522.
- Preparation and submittal to EPA of the revised Quality Assurance Project Plan on August 15, 2016.
- Approached select property owners regarding new access agreements or updates to existing agreements on August 10, 2016. This was done in anticipation of installing additional groundwater monitoring wells in the bedrock formation.
- Preparation and submittal of the *2016 Semiannual Groundwater Monitoring Report* on July 31, 2016.
