

Tasks Completed During Reporting Period

The following activities associated with the RFI and IM work at the subject facility were conducted between May 1-31, 2019.

- Maintained operation of the ICM system and conducted performance monitoring, including effluent sampling for VOC analysis, quarterly water level measurements, and daily system flow rate measurements.
- Conducted the May 2019 quarterly monitoring event during the week of May 20-24, 2019.

Difficulties Encountered During Reporting Period

No difficulties were encountered during the reporting period.

Summary of Contacts with Local (Community or Public) or Regulatory Groups

Owens Corning has had ongoing correspondence with EPA during this reporting period related to RFI activities. No additional interactions with the public or with EPA/DHEC occurred during this reporting period.

Projected Work for Next Reporting Period

Owens Corning's plans for the next reporting period of June 1-30, 2019 include:

- Continue operation of the ICM system and conduct required quarterly performance monitoring.
- Submit the off-site monitoring well and residential well results letters to property owners for the May 2019 sampling event, pending receipt of the analytical data.
- Submit the *Q1 2019 – Interim Corrective Measures Performance Monitoring Report*.
- Submit a response to EPA's May 22, 2019 comment letter for the Quality Assurance Project Plan dated November 21, 2018.
