

Tasks Completed During Reporting Period

The following activities associated with the RFI and IM work at the subject facility were conducted between May 1-31, 2021.

- Maintained operation of the ICM system and conducted performance monitoring, including effluent sampling for VOC analysis, quarterly water level measurements, and daily system flow rate measurements.
- Submitted the off-site monitoring well and residential well notification letters to the property owners for the May 2021 sampling event.
- Conducted the May 2021 quarterly groundwater monitoring event.

Difficulties Encountered During Reporting Period

No difficulties were encountered during the reporting period.

Summary of Contacts with Local (Community or Public) or Regulatory Groups

Owens Corning and Brown and Caldwell had a conference call with EPA on May 20, 2021 to discuss the wetlands delineation report and proposed off-site bedrock well location. No additional interactions with the public or with EPA/DHEC occurred during this reporting period.

Projected Work for Next Reporting Period

Owens Corning's plans for the next reporting period of June 1-30, 2021 include:

- Continue operation of the ICM system and conduct required quarterly performance monitoring.
- Submit the *Q1 2021 Interim Measures Performance Monitoring Report*.
- Submit the off-site monitoring well and residential well results letters to the property owners for the May 2021 sampling event.
- Initiate contact with relevant agencies to discuss permitting process for off-site monitoring well installation.
