

Tasks Completed During Reporting Period

The following activities associated with the RFI and IM work at the subject facility were conducted between November 1-30, 2018.

- Maintained operation of the ICM system and conducted performance monitoring, including effluent sampling for VOC analysis, quarterly water level measurements, and daily system flow rate measurements.
- Submitted the August 2018 off-site monitoring well results letters to property owners.
- Submitted the November 2018 residential and off-site monitoring well notification letters to property owners for the November 2018 sampling event.
- Conducted the annual groundwater and semiannual residential well monitoring during the week of November 12-16, 2018.
- Submitted a response to EPA's October 10, 2018 comments and the *Revised 2018 Semiannual Groundwater Monitoring Report*.
- Submitted a response to EPA's October 16, 2018 comments and the *Revised RFI Quality Assurance Project Plan*.
- Submitted the packer test field data for MW-41, MW-45, MW-46 and MW-47 requested in EPA's November 1, 2018 email.

Difficulties Encountered During Reporting Period

No difficulties were encountered during this reporting period.

Summary of Contacts with Local (Community or Public) or Regulatory Groups

Owens Corning has had ongoing correspondence with EPA during this reporting period related to RFI activities. No additional interactions with the public or with EPA/DHEC occurred during this reporting period.

Projected Work for Next Reporting Period

Owens Corning's plans for the next reporting period of December 1-31, 2018 include:

- Continue operation of the ICM system and conduct required quarterly performance monitoring.
- Submit the *Q3 2018 – ICM Performance Monitoring Report*.
- Submit the November 2018 residential and off-site monitoring well results letters to property owners, pending receipt of analytical results.
- Conduct the annual surface water monitoring on December 5, 2018.
