

### **Tasks Completed During Reporting Period**

The following activities associated with the RFI and IM work at the subject facility were conducted between November 1-30, 2020.

- Maintained operation of the ICM system and conducted performance monitoring, including effluent sampling for VOC analysis, quarterly water level measurements, and daily system flow rate measurements.
- Conducted the November annual groundwater and surface water monitoring event during the week of November 2-6, 2020.

### **Difficulties Encountered During Reporting Period**

No difficulties were encountered during the reporting period.

### **Summary of Contacts with Local (Community or Public) or Regulatory Groups**

No interactions with the public or with EPA/DHEC occurred during this reporting period.

### **Projected Work for Next Reporting Period**

Owens Corning's plans for the next reporting period of December 1-31, 2020 include:

- Continue operation of the ICM system and conduct required quarterly performance monitoring.
- Submit a RFI Work Plan for installation of an additional bedrock well.
- Submit the off-site and residential well results letters to property owners for the November 2020 sampling event.
