

### **Tasks Completed During Reporting Period**

The following activities associated with the RFI and IM work at the subject facility were conducted between October 1-31, 2019.

- Maintained operation of the ICM system and conducted performance monitoring, including effluent sampling for VOC analysis, quarterly water level measurements, and daily system flow rate measurements.
- Submitted the off-site monitoring well results letters to the property owners for the August 2019 sampling event.
- Submitted the Q3 2019 – *Interim Measures Performance Monitoring Report*.
- Submitted the off-site monitoring well and residential well notification letters to property owners for the November 2019 sampling event.

### **Difficulties Encountered During Reporting Period**

No difficulties were encountered during the reporting period.

### **Summary of Contacts with Local (Community or Public) or Regulatory Groups**

Owens Corning has had ongoing correspondence with EPA during this reporting period related to RFI activities. No additional interactions with the public or with EPA/DHEC occurred during this reporting period.

### **Projected Work for Next Reporting Period**

Owens Corning's plans for the next reporting period of November 1-30, 2019 include:

- Continue operation of the ICM system and conduct required quarterly performance monitoring.
- Conduct the annual groundwater and surface water monitoring and semiannual residential well monitoring during the week of November 11-15, 2019.
