

Tasks Completed During Reporting Period

The following activities associated with the RFI and IM work at the subject facility were conducted between October 1-31, 2020.

- Maintained operation of the ICM system and conducted performance monitoring, including effluent sampling for VOC analysis, quarterly water level measurements, and daily system flow rate measurements.
- Submitted the off-site monitoring well results letters to property owners for the August 2020 sampling event.
- Submitted the off-site and residential well notification letters to the property owners for the November 2020 sampling event.
- Submitted the Q3 2020 – *Interim Measures Corrective Measures Performance Monitoring Report*.
- Met with and obtained an access agreement from the property owner located at 140 Rose Drive to install a bedrock well on the property.

Difficulties Encountered During Reporting Period

No difficulties were encountered during the reporting period.

Summary of Contacts with Local (Community or Public) or Regulatory Groups

No interactions with the public or with EPA/DHEC occurred during this reporting period.

Projected Work for Next Reporting Period

Owens Corning's plans for the next reporting period of November 1-30, 2020 include:

- Continue operation of the ICM system and conduct required quarterly performance monitoring.
- Conduct the November annual groundwater and surface water monitoring event during the week of November 2-6, 2020.
- Submit a RFI Work Plan for installation of an additional bedrock well by December 2, 2020.
