

Tasks Completed During Reporting Period

The following activities associated with the RFI and IM work at the subject facility were conducted between August 1-31, 2022.

- Maintained operation of the ICM system and conducted performance monitoring, including effluent sampling for VOC analysis, quarterly water level measurements, and daily system flow rate measurements.
- Continued off-site bedrock well installation, packer testing and geophysical logging.
- Conducted the August 2022 quarterly groundwater monitoring event.
- Submitted the Q2 2022 Interim Corrective Measures Performance Monitoring Report.

Difficulties Encountered During Reporting Period

No difficulties were encountered during the reporting period.

Summary of Contacts with Local (Community or Public) or Regulatory Groups

No interactions with the public or with EPA/DHEC occurred during this reporting period.

Projected Work for Next Reporting Period

Owens Corning's plans for the next reporting period of September 1-30, 2022 include:

- Continue operation of the ICM system and conduct required quarterly performance monitoring.
- Submit proposed screen intervals for new off-site bedrock well MW-48.
- Submit the off-site monitoring well results letters to the property owners for the August 2022 sampling event.
