

Tasks Completed During Reporting Period

The following activities associated with the RFI and IM work at the subject facility were conducted between February 1-28, 2026.

- Maintained operation of the ICM system and conducted performance monitoring, including effluent sampling for VOC analysis, quarterly water level measurements, and daily system flow rate measurements.
- Conducted the February quarterly groundwater monitoring event.

Difficulties Encountered During Reporting Period

No difficulties were encountered during the reporting period.

Summary of Contacts with Local (Community or Public) or Regulatory Groups

A meeting occurred on February 13, 2026, with Owens Corning, Brown and Caldwell and EPA to discuss the completed pre-design investigation work. A follow-up meeting is scheduled for March 27, 2026 with Owens Corning, Brown and Caldwell and EPA to review the updated conceptual site model and discuss next steps for the corrective measures study. No other interactions with the public or with EPA/DES occurred during this reporting period.

Projected Work for Next Reporting Period

Owens Corning's plans for the next reporting period of March 1-31, 2026 include:

- Continue operation of the ICM system and conduct required quarterly performance monitoring.
- Submit the offsite monitoring well and residential well results letters to the property owners for the February sampling event.
