

Tasks Completed During Reporting Period

The following activities associated with the RFI and IM work at the subject facility were conducted between March 1-31, 2026.

- Maintained operation of the ICM system and conducted performance monitoring, including effluent sampling for VOC analysis, quarterly water level measurements, and daily system flow rate measurements.

Difficulties Encountered During Reporting Period

No difficulties were encountered during the reporting period.

Summary of Contacts with Local (Community or Public) or Regulatory Groups

A meeting occurred on March 27, 2026, with Owens Corning, Brown and Caldwell and EPA to discuss the updated conceptual site model and next steps for the corrective measures study. No other interactions with the public or with EPA/DES occurred during this reporting period.

Projected Work for Next Reporting Period

Owens Corning's plans for the next reporting period of April 1-30, 2026 include:

- Continue operation of the ICM system and conduct required quarterly performance monitoring.
- Submit the offsite monitoring well results letters to the property owners for the February sampling event.
- Submit the offsite monitoring well and residential well notifications to the property owners for the May quarterly sampling event.
