Tasks Completed During Reporting Period

The following activities associated with the RFI and IM work at the subject facility were conducted between October 1-31, 2026.

- Maintained operation of the ICM system and conducted performance monitoring, including effluent sampling for VOC analysis, quarterly water level measurements, and daily system flow rate measurements.
- Submitted the offsite monitoring well and residential well notification letters to the property owners for the annual sampling event.
- Conducted the annual groundwater and surface water sampling event.
- Submitted the offsite monitoring well results letters to the property owners for the August sampling event.

Difficulties Encountered During Reporting Period

No difficulties were encountered during the reporting period.

Summary of Contacts with Local (Community or Public) or Regulatory Groups

EPA conducted a site visit on October 28 and 29, 2026 to tour the site and observe surface water and groundwater sampling activities. No other interactions with the public or with EPA/DES occurred during this reporting period.

Projected Work for Next Reporting Period

Owens Corning's plans for the next reporting period of November 1-30, 2026 include:

- Continue operation of the ICM system and conduct required quarterly performance monitoring.
- Submit the offsite monitoring well results letters to the property owners for the annual sampling event conducted in October 2026.
